RE-RISE 1ST INNINGS

BEST OF 5 STARTUPS

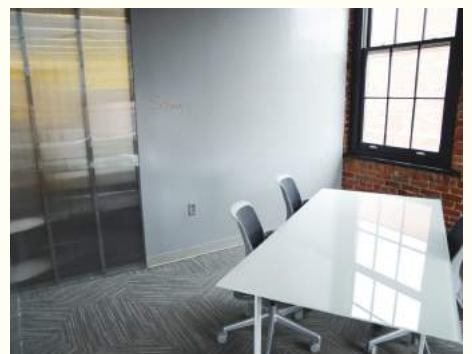

Recognised in Top 20 Incubators in Asia

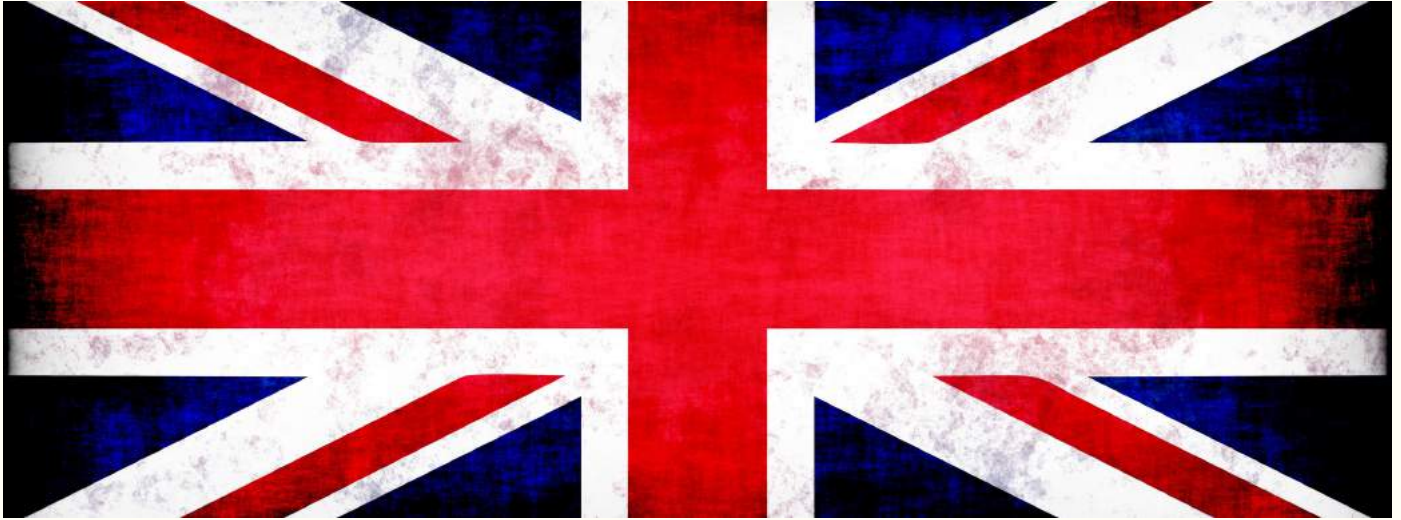

During the last two (2) months, after rigorous evaluation by UBI World Benchmark Study conducted in collaboration with CISCO, we are happy to announce that we are very well able to be recognised among Top 20 Incubators in Asia. We were among the 600 incubators participated in the study from over 70 countries.

On a global level, the ranking is still to be announced by UBI. We are also invited to the World Incubation Summit at Toronto, Canada.

We thank all our Mentors, Startups & Investors for continued support in making RE-Rise a success & growing rapidly.

In this issue, you will witness some of the exciting activities done in the past month and new initiatives taken.

Over 300 applications for our 2nd batch

by Shayoni Mazumder

By August end, we received over 300 applications on our AI based platform for our second batch of incubation. Startups from varied industry verticals such as Gaming, Cleantech, Aggregator & Platform, Emerging Tech, Education Tech, HR Tech, Smart Home and others have applied for various programs at RE-Rise. We are currently evaluating applications & soon will be launching our second batch

Witness our one-stop solution point for startups

RE-Rise has brought in service providers, in-house app/web developers, strategy/business development team in place to provide cost-effective services to all the startups which includes GTM, Business Plan, App/Web Development, Digital Marketing etc. We have also introduced Co-working space in Ranchi for startups outside our ecosystem to avail

The gaming saga begins-Trapgaming

by *Jasmeet Singh, Co-founder-Trapgaming*

Looking at the rapid growth of Gaming and eSports across the world, Trap Gaming looks to make the most of the already primed gaming market in India. We work for an industry which has already overdeveloped when it comes to participation. Fuelled by the community's passion for gaming and the target audience that makes up for more than 50% of the 1.3 Billion people in India, one can easily understand the potential of this industry.

Our founding team consists of an interdisciplinary mix of individuals. Kapil Thakur (The Gamer and community manager) has spent more than 7 years in the gaming industry including 5 years of formally and informally servicing it. Jasmeet Singh (The Business manager) has a very strong background in import, export and logistics. With this strong business ties in India and China we will be able to make the most of our reach in the Gaming industry. Last but not least, Anugrah (The content developer) makes a living through understanding what his target consumer needs and he makes it a point that he produces content that is engaging and disruptive. We have a team that is ready, willing and able to do what is needed to make sure that this industry makes a lasting impact. We see the current market state as a great opportunity which will stimulate spending and potentially create thousands of jobs in the years to come.
